## SUMMARY

---

Current senior at Western Oregon University, pursuing a Bachelor's in Computer Science. My skills and experience include utilizing HTML, CSS, Javascript, Python, C#, and frameworks such as ASP.NET Core MVC and Vue to create and develop web applications. I have experience in full stack development and software testing, and a strong interest in continuing to learn and grow in frontend.

## EXPERIENCE

---

04/2024 – Present

### PLUS QA QA Analyst

- Conducted efficient and extensive testing of web, desktop, and mobile applications for various clients across a wide variety of platforms and devices, including high-traffic and sensitive projects.
- Identified and reported software bugs and defects in clear and detail-oriented documentation, fostering open communication with developers in order to maintain and improve products.

03/2022 – 10/2023

### WESTERN OREGON UNIVERSITY COMPUTING SOLUTIONS Student Programmer

- Developed a productivity web application and API using Groovy, Grails, and Vue that interfaced with external project management software to support department operations.
- Provided technical support and delivered software development projects for clients.
- Effectively and collaboratively worked with other team members, as well as various developers and clients in organizations throughout the university for various aspects throughout the development process.

## EDUCATION

---

Expected Graduation: **WESTERN OREGON UNIVERSITY**  
June 2025 Bachelor of Science in Computer Science

## SKILLS

---

- Utilization of HTML, CSS, JS, and Bootstrap for designing web pages.
- SQL with RDBMS such as SQL Server.
- Experience with languages such as C#, C++, Java, Python, and Groovy.
- Experience with manual and automated software testing platforms.
- Experience with web application frameworks such as Vue, Grails, and ASP.NET.
- Strong interpersonal skills and committed work ethic.
